

Vinayak Vipradas

Technical Support Engineer

“Engineering Simulation has transformed the product development life cycle as it ensures faster, safer and better products”

BIO

Vinayak began his professional career as a Technical Support Engineer, where he continues to explore the vast capabilities of Engineering Simulation while expanding his knowledge on technological skills and tools. It is his motto in life to learn something new every day.

GOALS

- Continuous learning while seeking excellence
- Empower Ansys users with Simulation knowledge

Ansys EXPERIENCE

Vinayak started learning about the power of Ansys simulation tools during his university days by solving diverse engineering problems. As a Technical Support Engineer, he strives to grow and implement his learnings to contribute towards improving customer experience and ANSYS products capability.

SPECIALTIES

- Stress Analysis
- Heat Transfer
- Numerical Methods
- Scrum Practitioner

RESEARCH INTERESTS

- Automotive
- Consumer Products and Manufacturing
- Topology Optimization

PROFESSIONAL

EDUCATION

Bachelors in Mechanical Engineering, Savitribai Phule Pune University, India

PERSONAL

INTERESTS

Football, Travelling, Cooking

LANGUAGES

English, German, Hindi, Marathi

COMPETENCIES

SIMULATION

ENGINEERING

LEADERSHIP

Ansys PHYSICS
