Mario Boulos
Lead Engineer

"The engineer's first problem in any design situation is to discover what the problem really is"

BIO

With a start to his engineering career in research of deformable porous media, Mario took a passion for solving complex engineering challenges. The preferred part of the research was teaching and training. He was one of the first engineers to create the Ansys Learning Hub.

GOALS

- Empower Ansys users with skills and knowledge
- Continuous learning and development
- Gaining experience in project management

Ansys EXPERIENCE

Mario first started using Ansys almost 2 decades ago and has focused his career on helping engineers and students develop their skills all while concentrating on customer support and training.

SPECIALTIES

- Heat Transfer
- Non-Linear FEA
- Dynamics
- Scrum Practitioner
- Management

RESEARCH INTERESTS

- Pharmaceutical
- Biomedical
- Project Management

PROFESSIONAL

EDUCATION
PhD in Mechanical and Engineering, Bordeaux University

Masters in Engineering Mechanics, Toulouse University

PERSONAL

INTERESTS
Running, Skiing, Being Outdoors, Family

LANGUAGES
French, English

COMPETENCIES

SIMULATION

ENGINEERING

LEADERSHIP

Ansys PHYSICS
