

Janaina Oliveira

R&D Documentation Specialist II,
Fluids

“The right word changes the world.”

BIO

Janaina’s goal is to transform the world through communication. She has texts spread across the websites and platforms of different companies, each one of them unique and with the aim of bringing out the best that each company and product has to offer. She also carried out several research works and analyzed several communication strategies for a satisfactory Customer Experience.

ANSYS EXPERIENCE

Janaina's focus at Ansys has been to produce content that teaches users about the best uses of Ansys products, providing information about new features and how to use them through technical documentation, blog posts, tutorials and videos.
