

Josh Suneby

Senior Technical Support Engineer

“Advancements in simulation will allow engineers and designers to develop impactful products with increasing ease.”

BIO

With a background in physics and art, Josh has always been interested in the design of products. Josh enjoys hands-on problem solving and creative outlets.

GOALS

- Empower Ansys users with Skills and Knowledge
- Continuous learning

Ansys EXPERIENCE

Josh began as an intern for SpaceClaim years before the Ansys acquisition, giving him a strong foundation in Ansys SpaceClaim modeling skills. As a Technical Support Engineer at Ansys, he continued to develop those skills, while gaining experience with Discovery simulation and video creation.

SPECIALTIES

- Advanced Design
- Geometry Optimization
- Reverse Engineering
- Simulation Driven Design

RESEARCH INTERESTS

- Consumer product design
- Simulation
- Manufacturing

PROFESSIONAL

EDUCATION

Bachelors in Physics Connecticut College

Certificate in Manufacturing Engineering UMass Lowell

PERSONAL

INTERESTS

Tennis, Skiing, Golf, Reading, Travel, DnD

LANGUAGES

English

COMPETENCIES

SIMULATION

ENGINEERING

LEADERSHIP

Ansys PHYSICS
