

Kevin Scales

Application Engineer II

BIO

With his training in optical physics and too many other subjects to mention, Kevin has worked on three continents and in multiple industries before arriving at Ansys.

GOALS

- Empower Ansys users with Skills and Knowledge
- Continuous learning

Ansys EXPERIENCE

Kevin began working for Zemax in 2019, prior to its Ansys acquisition, giving him a strong foundation in OpticStudio. As an Application Engineer, he strives to help customers solve their problems through direct communications and with content creation in the optical realm.

SPECIALTIES

- Optimization
- Physical Optics
- Troubleshooting

RESEARCH INTERESTS

- Optical Propagation modeling
- Simulation

PROFESSIONAL

EDUCATION

Bachelors in Physics, Rensselaer Polytechnic Institute

Masters in Physics, University of New Mexico

PERSONAL

INTERESTS

History, Reading, RPGs

LANGUAGES

English

ANSYS PHYSICS
