

**Kaushal Vadnere**

Technical Support Engineer

“Simulation turns imagination into innovation – Predicting the future before it’s built!”

## BIO

Kaushal began his professional career as a Technical Support Engineer at Ansys, where he continues to explore the vast capabilities of Engineering Simulation while expanding his knowledge on technological skills and tools.

## GOALS

- Empower Ansys users with Skills and Knowledge
- Continuous learning and excellence

## Ansys EXPERIENCE

Kaushal started learning about the power of Ansys simulation tools during his university days by solving diverse engineering problems. As a Technical Support Engineer, he strives to grow and implement his learnings to contribute towards improving customer experience and ANSYS products capability.

## SPECIALTIES

- Stress Analysis
- Non Linearities
- Vehicle Dynamics

## RESEARCH INTERESTS

- Composite analysis
- AI enhancements
- Coupled Physics

## PROFESSIONAL

### EDUCATION

Bachelors in Mechanical Engineering, Savitribai Phule Pune University, India

## PERSONAL

### INTERESTS

Mountaineering, Reading

### LANGUAGES

English, German, Hindi, Marathi

## COMPETENCIES

SIMULATION

ENGINEERING

LEADERSHIP

Ansys PHYSICS
