

Simone Silva

UX Designer II, Fluids

“Art is not what you see, but what you make others see.”

BIO

Simone is a visual designer by formation who has been working as a User Experience specialist in the software development field. She's passionate about creating and exploring visual elements that will improve the experience of digital products.

GOALS

- Contribute to the efforts on developing an intuitive and easy-to-use interface.
- Enhance support material by applying graphic design guidelines and resources.

Ansys EXPERIENCE

Simone works as the solo UX Designer in the Ansys Rocky team, carrying out tasks related to Ansys Rocky's user interface and overall user experience of the product and its support content.
